03/2023 – 02/2024	**F8** Follow the learning process here: https://github.com/duonghiep416/duonghiep_f8_fullstack

🗄 Projects

Quizlet Clone

(02/2024 - Present)

Description	A personal project applying learned skills, based on the concept of the Quizlet flashcards study platform
Number of members	1
Position	Developer
Functionality	• Flashcard Creation: Users can easily create flashcards, including pairs of words and definitions, related images, or audio. This allows for effective vocabulary or knowledge acquisition. • Study Modes: Users can select study modes tailored to their needs, such as flashcard mode for vocabulary review, quiz mode for testing knowledge, or practice mode for reinforcement. • Progress Tracking: This feature enables users to monitor their learning progress, including the number of flashcards studied, quiz results, or time spent studying within specific periods.
Technology in use	- Frontend: NextJS, TailwindCSS, NextUI - Backend: Nodejs, ExpressJS, Postgresql
